FREIGHT IN THE LOWER HUDSON VALLEY “Why you **should** care”

- **Freight tonnage is projected to increase by 85%.**
- **Today, trucks carry almost 90% of all freight.**
- **Look at the numbers. Think of the future.**
- **Where will all of these trucks go?**

Come explore
WHAT
the issues are.

Learn to ask
WHY
you should care.

Freight tonnage in the NYMTC region is expected to increase by **85%** from 434 million tons in 2004 to 804 million tons in 2030. Of the current freight traffic **89%** moves by truck, **10%** by water, **1%** by rail and less than **1%** by air.

transportation is **not** just
about passengers
